

Thermoplastic Coatings

Items	Photos	Description in Brief		Detailed Description Please Scan QR Code
Polyethylene (LDPE) Powder Coating		Color	RAL color or any custom color	
		Use Method	Fluidized bed dipping , electrostatic spraying	
		Use	Coating for Wire fence,shelves,basket, and any metal parts used indoor or outdoor	
		Packing	25kg/bag, 1Ton/Pallet	
Thermoplastic Nylon (PA) Powder Coating		Color	RAL color or any custom color	
		Use Method	Fluidized bed dipping , electrostatic spraying	
		Use	Spline shaft, dishwasher basket, screws, underwear accessories	
		Packing	25kg/bag, 1Ton/Pallet	
Fluoropolymer (PTFE,ETFE,FEP,PFA) Powder Coatings		Color	RAL color or any custom color	
		Use Method	Fluidized bed dipping , electrostatic spraying	
		Use	Coating for Electroplating jigs, or metal parts , resistant to acid, alkali and high temperatures.	
		Packing	20kg/bag, 1Ton/Pallet	
Polyvinyl Chloride (PVC) Plastisol Coatings		Color	RAL color or any custom color	
		Use Method	Dipping	
		Use	Coating for handles, electroplating jigs, any metal parts used for indoor or outdoor. Toy Grade for Soft Toy	
		Packing	200kg/Barrel, 1Ton/Pallet	

Polyolefin PO/PE Rotolining Powder Coatings for Pipe Lining		Color	White	
		Use Method	Rotolining	
		Use	Internal & External Lining for storage tanks and pipelines, resistant to acid, alkali and high temperatures.	
		Packing	25kg/Bag, 1Ton/Pallet	

Coatings-Application Equipment

Items	Photos	Description in Brief	Detailed Description Please Scan QR Code
Fluidized Bed Dipping Equipment		Use: Apply thick plastic coating for metal parts through fluidized bed dip process Coating material: Thermoplastic coating or thermoset coatings. Production time: 20-30 days Shipping method: By sea	
Dip PVC Plastisol Coating Equipment		Use: Apply PVC coating for metal parts through dip process Coating material: PVC plastisol Production time: 20-30 days Shipping method: By sea	

Dip PVC Molding Machine		Use: Production of pvc molds, such as caps,sleeves,protection cover Coating material: PVC plastisol Production time: 20-30 days Shipping method: By sea	
Nylon Patch machine for anti-loose screws		Use: Apply nylon coating patch for anti-loose screws Coating material: Nylon Production time: 20-30 days Shipping method: By sea	
Production Line for Welded Wire Mesh Roll		Use: Apply PVC coating for welded wire mesh rolls through dipping process Coating material: PVC powders Production time: 20-30 days Shipping method: By sea	
Flame Spraying Gun For Plastic Powder Coating		Use: Apply thick coating for metal parts through flame spraying process Coating material: Plastic powders Production time:5-7days Shipping method: By Air
